

Building Energy Asset Score: Data Collection Form - *Preview Input Mode*

Building Name:	
Data collected by:	
Email, phone:	
Date of Data Collection:	

This form contains all of the minimum required data fields necessary to generate an estimated score range and an Asset Score report preview for single-use rectangular buildings. Fields shaded in green are required inputs for using the Asset Score Preview Input Mode of the tool. Fields shaded in yellow will be inferred and may be edited or verified before scoring. Use the [Data Collection Form - Full Input Mode Long Version](#) for additional shaped buildings, mixed-use types, complex HVAC systems, and/or available optional fields in the Asset Score Full Input Mode.

Building location	STREET		
	CITY	STATE	POSTAL CODE
Orientation of longest facade (N,S,E,W)		Gross floor area - ft2	
Year completed		Number of floors	

Building Use Type

Assisted Living City Hall Community Center Courthouse Education Library Lodging Medical Office Multi-family(4 stories +) Multi-family(less than 4 stories) Office Parking Garage Ventilation only Post Office Police Station Religious Building Retail Senior Center Warehouse non-refrigerated
